

For engine starting only

Ideal for ground use when jump starting aircraft, tank and military truck engines, this 24V All-In-One air portable/carry-on START PAC® with built-in chargers, power plug and cables is specifically designed for engine starting only. Additionally, the environmentally responsible, low VOC powder coating protects the case from wear, tear and poor weather conditions giving you maximum peace of mind.

One of our most popular ground power unit starters for ground use at home and in the field, this portable starting unit will start turbine or piston engines with up to 1500 horsepower. It is equipped with universal chargers and is also available as a “Twin Pac”. Its environmentally responsible, low VOC powder coating protects the case from wear and poor weather conditions.

SPECIFICATIONS

Battery type	Lead acid
Voltage	24 VDC
Peak Current	2300 A
Capacity @10 Amp Rate	28 Ah
Complete Weight	67lbs/ 30kg
Dimensions - Length x Width x Height	19.2" x 7.5" x 11.5" 48.8 x 19 x 29.2 cm
Charger type	Built in
Float type charger input	90-240 VAC 50/60 hertz
Charging time range	30 minutes to 3 hours

PRODUCT FEATURES

- Compact and lightweight
- Air portable/carry on START PAC® for whenever power is needed
- Complete all-in-one unit is supplied with built-in universal smart float type chargers for faster recharge, power plug and 7ft/2.1m aircraft cables
- Integrated LED charge indicator
- Cold resistant, valve regulated high amperage output lead acid batteries
- Powerful, sealed cells non-hazardous battery pack, can be used in any position. Maintenance free.
- Non toxic, non spillable and recyclable batteries.
- Resistant aluminum case with environment friendly, low VOC durable powder coat finish, easy to handle, built for heavy duty usage
- Patented Quick Change design : less than one minute battery change for easy replacement
